

More osc2nuke support communities wanted

2005-05-22 11:55:15 by nukeevangelist

PHP-Nuke has seen phenomenal growth in recent years. In many ways, it has been a great success story - and yes: osc2Nuke already is a success-story. You can get part of this story now.

Yet Nuke is known worldwide! and osc2nuke.com is following this [all time PHP-Leading-App](#) consequently by joining and combining together the resources, knowledge and forces eg. on phpnukefiles.com [with more than 2500 **dual-use**modules blocks & hacks]

BTW; now we want more countries with support-communities for Osc2nuke: the success-story is now expanding in to the next level!! We are looking for some new supporters in all areas of the world.

if you can open up a **support site** in **Norway, Sweden, Finland, Russia; Lettland, Greek** or anywhere else in the world - plz do this. **help the Nuke-success story: - ge part of it now !** Jump in and be a osc2nuke-supporter in one of the above mentioned countries.
