

Raven's Collapsing Forums Block v2.3.0 Released!

2006-01-19 04:36:15 by Raven

I have released v2.3.0 of my Collapsing Forums Block.

Changes for this version are:

- Modified behavior of \$showJumpBox to \$showJumpBoxes
- Added setting (\$showTickerMessage) to control ticker
- Converted drop down boxes to use FieldSet
- Removed underlining of Jump To boxes
- Added style tag for text color to optgroup
- Added style sheet for show/hide button
- Moved language defines to their own language folder
