

## Sec-Fix Patch SFP

2004-02-04 23:02:33 by chatserv

Security patch for PHP-Nuke 7.0 and 7.1 designed to secure the Reviews, Search, Sections and Surveys modules against a vulnerability being exploited in the same fashion the Downloads and Web\_Links modules were compromised a while back.

Downloads: [PHP-Nuke 6.5-6.9](#) - [PHP-Nuke 7.0](#) - [PHP-Nuke 7.1](#) Updated - Added diff files in html format.
