

phpnuke.pl is back again - celebrate the global network of invention

2007-03-14 02:06:09 by nukeevangelist

PHPNuke.pl in new version is available again! polishnuke announced several hours ago:
"PHPNuke.pl want to announce that polish support for PHPNuke has changed its owner and is back again with new version"

that is great: **PHPNuke is literally a global network of developers, coders, supporters, users, friends..**we have sites around the globe -some of them are the following.

- PHPNuke.pl

phpnuketurkiye.org PHPNuke site for Turkey :: see the great JAVA-Bars [top-left]

nukescripts.fr

phpnuke-israel.org

irannuke.com

thainuke.org

NukeArab.com

PHPNuke is literally a global network of developers, coders, supporters, users, friends..the global group bridges time, distance, cultural-gaps.

Bridging in a true sense: We connect people in Beirut with those in Kairo, Teheran, Bagdad....
and we bridge cultural gaps .. connecting friends
all over the world. Get on board and celebrate the never ending story of community-success.
