

PCMS PHP-Nuke Course Management System PCMS version 1.1

2007-04-14 11:04:26 by nukeevangelist

PCMS PHP-Nuke Course Management System PCMS version 1.1 :: travel over, get free code & problem solving capabilities :: support the sustainable development for the rest of this century

[see more her](#)

[Course management system \[fully fledged\]](#)

aamato writes "Fully featured course management system (CMS) designed for PHP-Nuke. You can see it here. A working demo can be seen here.

Control your users, your courses and your lessons. Lessons can be Flash presentations, quizzes, chats, HTML pages and downloads. Every lesson can have a forum.

You can charge for your courses and lessons, using a credits system. Use any shopping module/content page to sell credits for users
