

TruBar 4.0 [Silent] - PHPBBNuke anti spam MOD

2007-06-03 22:58:36 by Truden

TruBar 4.0 [Silent] for PHPBBNuke is an anti spam MOD based on cookies and java script. All users receive cookies on "onmousedown" event through small java script function when they click in the text area to type the message.

On POST cookies are checked.

Robots do not click and do not read java script.

Download it [here](#).

Test it [here](#).
