Recruitment Form version 3.0 - fully featured: see demo now online, get the code

2008-03-18 17:57:38 by nukeevangelist

Dear friends on Ravenphpscripts.com,

Now we have many modules, blocks and hacks running in PHPNuke. A great one ...
Recruitment-form [in action]: Counter-Strike Recruitment Form version 3.0 for your phpnuke site is now available.

The Recruitment Form has been completely configured into a full PHP-Nuke module for easy installation and management. The form is configured to use PHP mail function to send the forms information to the site administrators email address.
This cool module also contains a Readme.txt on how to install it. The module will work on phpnuke 7.x and up.

Travel over to the Recruitment-form [in action] :: get the free code and add your feedback - thank you very much for your help.
