Table-less phpnuke themes released

2008-03-28 00:39:56 by gotcha

I have released 2 new table-less phpnuke themes on nukecoder.com called Zone Red and Zone Blue. These themes have a nice web 2.0 style, are very lightweight, fast loading and are XHTML compliant. Both themes come with matching forum templates.

Check out Zone Red
Check out Zone Blue

You can get more info and see more screenshots on nukecoder.com

Note: Since this theme was designed to use on RavenNuke I am offering a $10 off coupon code for RavenNuke users. Just enter the coupon code *RAVENNUKE* in the provided box.
