My Fix For All Admin Exploits (Maybe?)

2004-05-03 22:51:41 by Raven

I've been testing an HTTP Basic Authentication routine for my admin.php file to ward off exploits and I am ready to ask you to test it. See this post for the details.Once it's tested a bit I will release it as a package for downloading. Maybe I need a fancy name? :LOL:
