

New Theme Released ... Formal

2008-09-01 02:32:26 by papamike

Just released my latest theme Formal. It's a dark theme with matching forums and additional graphics so you can change the header logo and a few others.

You will need to register to download this theme. Go to <http://www.papamikecreations.net> and look for it in the downloads under Newest Themes.
