Gender Hack SC_2.0 for PHPNuke 6.9 to 7.5

2004-09-15 23:44:28 by spcdata

I have updated Gender Hack version 1.1 to SC_2.0 for:

PHPNuke 6.9 to 7.5 all comes in their own package You just have to download for the version You use, easy as that!

Changes from version 1.1

+ Now included in block-User_Info.

+ Some interface improvements etc.

+ Minor bug fixes

- Gender selection is now required at new user registration

- Added images to the registration page

- Added images to the edituser page

- Added New lang definitions

- Users can select wich gender they are in the edituser page.

- An image will show up under the user avatar on the userinfo page.

I have made marks to all changes in all files for Manual Install if You don't want to overwrite the orginals.
