

## Ultra Downloads and WLFiles for PHP-Nuke 7.5

2004-10-27 20:19:30 by weblord

Ultra Downloads and WLFiles now also for PHP-Nuke 7.5 at [Weblord.it](http://Weblord.it)

Ultra Downloads is a new module with different graphics layout.

This module includes:

- admin panel with downloads settings;
- users can browse files but they must register for download;
- fetch mode (thanks to [MGCJerry](#));
- last 10 e top 10 box in downloads index.

Available languages: italiano, english. WLFiles is a copy of Ultra Downloads module by [Weblord.it](http://Weblord.it) and can be used in contemporary with another downloads module.

Available languages: italiano, english.

Download at: [Weblord.it](http://Weblord.it)
