Language Pack Updates!

2003-02-04 08:00:03 by gcf

Thanks to Frank McNamara, we now have language translation #24 - SWEDISH! Get it from the download area.

Also, thanks to Ruslan Usipov I have a corrected and updated Russian language pack. Be sure to get both of these!

2/9/2003: These are no longer available as separate downloads. They are contained in the v5.0.2 fix pack, although you don't have to be using v5.0 to use them.
