NukeCommerce:new version v 2 soon to come - now expanding the global network

2005-02-28 20:27:18 by nukeevangelist

brand new at - NukeCommerce.org The developers: "We will return, we are working hard on a release for version 2.0.... stay tuned. Thanks -NukeComm Dev team!"

Let us celebrate this great news - the NukeCommerce-group is very active! The new version will be even better - allready 2000 members share their knowledge and help each other.

NukeCommerce.org a **Top-Merger-project** integrates a global brain - **and puts together the power of more than 2000 users: synergy** at work!
the e-commerce-companion of phpnuke can rely on phpnukefiles.com [2500 modules blocks & hacks] a great **ressource of knowledge and support** And with that NukeCommerce can rely The NukeCommerce-folks can **share the power of a global brain** Within this community, we share knowledge & help and create a self-sustaining-system of exchange.

BTW; now we need more countries with supporsites for Nukecommerce: now expanding in to the next level!! We re looking for some new supporters in all areas of the world. Who will open up a supportsite in Norway, Greece, Russia, China?Altogehter we re joining together one of the largest socio-technical-network under the sun! We Fostering cooperation on the Internet: social exchange processes in innovative virtual consumer communities currently phpnuke is well known in more than 35 countries - we re working on a new map to leverage the knowledge-exchange and to improve the global network.
