Host.Deny SQL file V0.2 Released (NON SOURCEFORGE RELEASE)

2005-03-03 23:56:24 by fisicouk

This file will enable all of the IP's in Host.Deny 2.4C, as well as 6100 other Ip's kindly provided by Gerard from Dancemusic4u.com,to be added to your Nuke Banned IP List

NOTES: This will over-write any data in your Nuke Blocked_Ip table
ONLY SOME support will be offered for this, as it is only part of a future MOD (Host.Deny Auto Execute File

This file will need to be split into chunks to be read by PHP MyADMIN without Crashing.

This file has been tested and does work, so I do now offer some support on this file.

DOWNLOAD Here

LLOYD

The point in this???? Stop hackers. A Sentinel version will be done soon.....
