some modules / blocks for the PHPNuke-Community - free download without reg.

recently [Elessar announced a bunch of good blocks and modules](#) :: see the many good modules and blocks on tux-br.org

Elessar wrotes "Hey everybody! I'm from a little Nuke community from Brazil, and I've made some modules/blocks for everyone to use and improve with me.

They are the following - travel over and read full description:

[Mini-Guide / Dinamic signatures PHP-Nuke](#)

[Block / login Uebimiau 2.7.2](#)

[Block / login Uebimiau 2.7.8](#)

[Module / User e-mail export](#)

[Module / User points administrator](#)

[Module / Submit Content \(modified\)](#)

[Module / Tux-BR Iptables V1](#)

No registration is required to download them.

Thank you Community !"
