phpnukefiles: allmost 35 000 user worldwide - a defacto CPAN for PHP-Nuke

2005-04-08 06:14:37 by nukeevangelist

phpnukefiles.com [with more than 2500 **dual-use**modules blocks & hacks]

Nuke has a widespread user-community which is extraordinary flexible and capable overcoming many of limits, constraints and bottlenecks. This distributed network helps to innovate permanently. Hundreds of Module developers are writing modules. At the moment we re joining and combining together the ressources, knowledge and forces eg. on phpnukefiles.com [with more than 2500 **dual-use**modules blocks & hacks]

Altogehter we re joining together one of the largest socio-technical-network under the sun! we re working on a new map to leverage the knowledge-exchange and to improve the global network.
