2005-05-10 00:54:13 by Nukeum66

The NukeSentinel™ 2.2.1 User Guide is now available at www.nukeum66.us in the downloads area under 'Document Mods'.

There is also an upgrade for those that have downloaded the User Guide for NukeSentinel 2.2.0. This ONLY contains the file needed to update the guide to version 2.2.1 without having to download the module as a whole.
