Pc-Nuke! Systems - Xtreme! 7.8 System Released

Pc-Nuke! welcomes everyone to the latest release of our FREE portal systems. PcNuke-Xtreme! v7.8 is based from PHP-Nuke and this version is not made to be used as upgrade versions type. Incorporating numerous upgrades from various developers including: Pc-Nuke! Advertising System, Amazon Store, Photo Gallery, Events Calendar, Shoutbox, including all available recent upgrades for 7.8.31 & phpBB 2.0.16 forum, Chat & Games rooms, and more.... We tried to replace the php-nuke faulted areas with our own, or other developers addons. Check our Menu/Version section on our website for more information.
