

BBtoNukeMods.com Releases

2005-11-19 21:33:14 by CurtisH

Things are slowly taking shape at BBtoNukeMods.com, our members have begun to pull together and start releasing updated, and new ported phpBB Hacks for use with bbtonuke.

We encourage those that are interested in forum mods to give us a glance, it's quite possible you will find many forum mods that interest you.

Here are some recent releases by our members:

[Coloku \(Sudoku Adaptation\)](#) A colorized version of the popular game Sodoku by majorflam - Released by Trubador

[Sudoku 1.0.3 Nuke Port](#) BBtoNuke version of the popular numbers puzzle for your forum. - Released by Trubador

[Sudoku Game pack 2](#) An expansion pack for the ported version of Sodoku. - Released by Trubador

[Yahoo Auto Feed 1.0.0](#) adds the ability to have a user auto post a selection of Yahoo! News RSS feeds in your forums everyday. Ported from the phpBB version by aUsTiN. - Released by CurtisH

[Advanced Username Color 1.0.5 by aUsTiN](#) aUsTiN's most recent version has been updated for bbtonuke. - Released by CurtisH

We have many more forum mods and add-ons available thanks to the efforts of many members of the Nuke community.
