

XAMPP version 1.5.0: the great Apache Server Stack now with MySQL 5

2005-12-21 10:49:31 by nukeevangelist

XAMPP version 1.5.0: the great Apache Server Stack now with MySQL 5 :: new on [Apachefriends.org](http://apachefriends.org) The newest version XAMPP for Linux with MySQL 5.

new also: Apache (2.0.55), PHP (4.4.1), phpMyAdmin (2.6.4-pl3) and OpenSSL (0.9.8a). read more about [xampp-linux-1.5.0.exe](#) :: see [forums for help and problem solving capabilities](#) ::

btw: the Tortoise-Team released [unstable Version TortoiseCVS-1.9.11.exe - 5 MB - 29th October 2005](#) :: now we have the following versions:

- Unstable (for testing) - TortoiseCVS-1.9.11.exe - 5 MB - 29th October 2005
- TortoiseCVS Stable (for deployment) - TortoiseCVS-1.8.22.exe - 5.67 MB - 16th September 2005

great tools: have lots of fun with the rookie tools - great tools and ready to use with the great documentation eg like the [PHPNuke manual with more than 1200 pages](#)
