

JabberNuke.com now with more than 2000 members supporting the development

2005-12-24 15:49:02 by nukeevangelist

more good news on [JabberNuke.com - get informed about the innovative project](#) already 2000 members support the development

JabberNuke opens up new ways of interaction for your Nuke-portal: Please travel over and look where [Jabber Powered](#) Meets [PHPNUKE powered](#) and creates [Complete Interaction](#)

[JabberNuke.com](#) opens up a Free Jabber chat server, to connect and share communication! Please check out [JabberNuke.com](#) , and sign up for a chat user, then get a client to start chatting now!

whats new: recent changes in Jabber client software that we use. Rhymbox client as it was known, as a very strong Jabber client, has undergone many changes. Some excellent software updates which provide much easier functionality and more features too. This clients software name has also gone under change, and I would like to share some information about this change. Rhymbox is now known as Pandion.
