

## PND Tech Theme v1.0 is Out

2006-12-01 05:37:12 by astalavistabd

[PHPNuke-Downloads](#) has released another great **free** theme for phpnuke. The theme is a very good choice for any technology based website. So we decided to name the theme **PND Tech v1.0**. Here are some features of the theme.**Features:**

- 1) Excellent layout for any technology related site.
- 2) We used Adobe Photoshop and Adobe ImageReady to give the theme's images a professional look.
- 3) The theme comes with blank header logo, so that you can easily edit it.
- 4) The theme does not come with phpbb(forum) theme but this site([http://www.phpbb-design.com/phpBB2\\_styles\\_demo/](http://www.phpbb-design.com/phpBB2_styles_demo/)) has hundreds of phpbb them, some of them may match our theme.
- 5) The theme tested with IE 7, FireFox 1.5.0.8, Opera 9.2.
- 6) The theme is also tested in phpnuke v7.6 and 7.7. It may work with other versions too.
- 7) Since we always think about small screen resulation users we made the theme to fit smaller screen size, although the theme will be best viewed by 1024\*768 screen size.
- 8) The theme loading time is fast enough for even dial up users.
- 9) The theme also comes with header photoshop image file(PSD) which will allow you to modify the design professionally.
