

## NukeCode Yahoo Search Blocks V2

2007-01-28 17:49:32 by Seven

This package contains a set of four blocks for phpnuke all are for Yahoo! search. Each block opens its search results in it's own window so your users are not taken away from your site.

There are basically 2 sets of blocks one with site search, one without.

Site search blocks:

block-Yahoo\_Search\_CTR\_SS.php is a center block

block-Yahoo\_Search\_SIDE\_SS.php is a site block

Make sure you set YOUR sites URL in the variable called "\$your\_url"

There are two additional blocks without site search:

block-Yahoo\_Search\_CTR\_NSS.php - center block

block-Yahoo\_Search\_SIDE\_NSS.php - side block

Download them [here](#) Registration Required.
