

Call of Duty 4 Theme Released - Finally!

2008-02-06 17:27:34 by xgstq

It's been a long time coming, we have been really busy over the last 2 months and have now decided to announce that [PHPNuke Clan Themes](#) has released a new Call of Duty 4 theme. [Call of Duty 4 Theme](#) is an exciting and one of a kind [PHPNuke Theme](#). It has many great features including a users control panel in the header, and a matching flash shout module and block.

Description:

A excellent example of a Call of Duty 4 [clan template](#). The header is part flash part image, The flash work has a nice smoke effect from the vents, subtle and not to over the top.. No annoying sounds or constant flashing parts. I have also incorporated a user's control panel under the main header. The control panel works in a 2 way effect for users logged out or in. When logged out, they get the log in form and 6 rotating banners to the right which can be edited (instructions and psd included). When a user logs in the control panel changes and adds many features, Private Messages, IP, Total Members, Online Now and a lot more great links. It also has scrolling site news underneath the control panel, and did I mention the user's Avatar?

Overall a top class theme !

Features:

- Flash Shout Box with instructions
- Matching Forums
- Flash Matching Clock
- Fixed width theme suitable for 1024 screen resolutions and over
- Links Fade script
- No Right Click script (Admin can right click)
- Rotating Banner placement in header/top of theme
- Fixed advertisement in centre of footer for the Advertisement Module

Extras:

- Your Account Images
- Join Us image and instructions
- Topics Images and setup instructions
- Modules PSD
- Theme fonts
- Extra Images
- Banner Image [Preview Theme](#)
