

Ultra Downloads Module

2004-05-21 06:33:31 by weblord

Ultra Downloads is a new module with different graphics layout.

This module includes:

- admin panel with downloads settings;
- users can browse files but they must register for download;
- fetch mode (thanks to [MGCJerry](#));
- last 10 e top 10 box in downloads index.

Available languages: italiano, english.

Download at: Weblord.it

Admin Note:Registration is required :(
