

Pat On The Back

2019-05-14 00:09:09 by papamike

I would like to take a moment to recognize someone who we all owe a big round of applause to. I was deeply concerned when the development of RavenNuke stopped. But then one day someone came along and picked it back up, brushed it off, and jump started the development once again. It's amazing what this guy has done with it. RavenNuke is back with the release of 2.52 PHP7 version and we all owe a big thanks to **neralex** for his dedication to this project. I am now seeing a lot of old timers coming back to the forums and showing a renewed interest. I'm sure with time RavenNuke CMS will be hot once again.
