

advertising-module for PHPNuke and osc2nuke a dual-use module

2005-03-08 21:18:58 by nukeevangelist

Advertising V0.7 - a very interesting PHPNuke- and osc2nuke-module

ibdeeming.com comes up with the enhanced module.

"Advertising v0.7 brings FLASH advertising as promised. Along with this, fixes for the creation of advertising plans including

Inability to add a new plan

Installation program to make install of database tables easier!

minor problems with logic

Added and included new blocks to support the potential FLASH ads you'll display.

instructions on modifying a theme if banners are coded in the theme

Paths to Success

First thing - back

Advertising V0.7 - a very interesting PHPNuke- and osc2nuke- module :: great news on

ibdeeming.com, the developersite which also created the [WeatherHarvest module \(demo\)](#)

recently came up with the [Advertising-module v 0.7](#)
